

New Referees Qualified on Re-designed Officials Course

Seven new basketball referees from across Tayside and Fife have been qualified on a course recently delivered in Dundee. The re-designed course now lasts two full days, mirroring UKCC Level 1 coaching award and prepares candidates much better to start their basketball officiating career.

The candidates ranged from senior pupils and university students to a teacher who used to referee elite level rugby in Australia. They are now waiting on chances to hone their new whistling skills on schools, University and local league games in the region. We wish them well

There are two Getting Started referees courses planned, one for Fife and one for Tayside between January and March 2010. Check back here for details.
